

# UNDERGRAD WOMEN IN PHYSICS CONFERENCE 2013

How will you end up in graduate school or at a great job with a degree in physics or astronomy?

Find out how by attending 2013 South Central Conference for Undergraduate Women in Physics (SCUWiP),  
January 18<sup>th</sup>-20<sup>th</sup>, 2013

in Austin, TX

[Hosted by the University of Texas at Austin]

This year's event is packed full with talks and panels by women in various physics careers to motivate female undergraduates to pursue their passions in physics and astronomy, including:

- Ψ Keynote speaker Margaret Murnane broadcasted from Caltech to all 6 Undergrad Women in Physics Conferences
- Ψ Opening remarks by UT Austin Dean of College of Natural Sciences Linda Hicke
- Ψ Presentations of current cutting-edge research in the fields of physics and astronomy
- Ψ Q&A panel with women physics faculty and graduate students about applying to graduate school
- Ψ Q&A panel on various career opportunities by women who hold degrees in physics or astronomy
- Ψ Tours of UT Austin physics laboratories in RLM building
- Ψ And so much more...

Participants will lodge at the Holiday Inn in Downtown Austin overlooking Town Lake, shuttles to campus will be provided
